MODIFICATION 8 OF THE INTERAGENCY AGREEMENT BETWEEN
THE U.S. CONSUMER PRODUCT SAFETY COMMISSION (CPSC)
AND THE CENTERS FOR DISEASE CONTROL AND PREVENTION (CDC)

This Modification Number 8 is issued to:

1. Amend Section V (Modification no.7) to read as follows: The Centers for Disease Control and Prevention will effect the transfer of \$2,500.00 to the Consumer Product Safety Commission (CPSC) in fiscal year 1998 to support a training session for the National Electronic Injury Surveillance System (NEISS) injury coders.

The CPSC has recently updated the NEISS sample. Many new hospitals are now participating in the data collection effort, while others who previously reported data were dropped from the system. Since there are many new hospitals in NEISS, it is critical that the field coders receive appropriate training. The National Center for Injury Prevention and Control (NCIPC) makes use of the NEISS surveillance system to collect gun shot wound injuries and supporting this training effort helps ensure the accuracy of the data in the system. CDC personnel will be participating in this training session as it pertains to firearm injury data.

2. Amend Section IX (Modification No. 3) as follows:
